QUESTIONS/COMMENTS

Name	Question/Comment
Jodi Wills	Hi, this is Jodi from TranTech Engineering, and we would like to receive info on the project. Thanks!
Regan Heineke	QA is defined as a Major Participant. The RFQ states “Major Participants listed in Categories A, C, D, E, F, G, and H in Section 5.1 shall have at least one project identified” and that “References shall be provided for all projects listed.” However, Table 7.2 does not request or provide scoring for the QA/Category G firm or personnel. Please clarify how to include at least one project and reference for the QA firm or personnel.
Kirk Wilcox	The project team needs to clarify that QA/Category G firm or personnel will be evaluated as P/F [Addressed in Addendum #2].
Regan Heineke	Clarification will help.
Jami Boutwell	How will we get confirmation that the SOQ was uploaded correctly and that WSDOT received it? Is it possible to get confirmation ahead of the deadline?
Chris Gross	There will not be a confirmation of receipt from WSDOT. Submitters will be able to check for confirmation that the SOQ file is loaded directly on the SFTP site.
